

DAILY LESSON PLAN

(NO.9)

Unit: 1

Date:

Year level: 4

Characteristics and Life Processes of Organisms

Topic: Major Organs or Parts of the Human Body and their Functions

Key Learning Area:

- Structure and functions of the major organs of the human body, Bones, Muscles

Lesson Outcomes:

- Students will be able to learn about the structure and function of bones
- Students will be able to learn about the structure and function of muscles

Required Days: 1 day

LESSON STRUCTURE:

Teaching hours: 40 min.

Time	Introduction (Set):	Teaching Approaches
Total time: 5 min. 5 min.	Introduce the concept of major parts and organs in the human body	<u>Method:</u> <u>Class discussion and Visualization</u> Students will be asked to ponder on the importance of the parts/ organs of the human body Show some visual pictures of human actions that are related to the function of the parts/ organs of the human body i.e. running, breathing, eating and chewing food, etc. Students will be asked to think about the importance of parts/organs of human beings

Time	Main content:	Teaching approaches
Total time: 30 min. 15 min. 15 min.	Tell the students about the difference between parts and organs of the human body Tell the students about the function of the human organs such as bones and muscles .	Method: <u>Class discussion, Group discussion, Reading and Writing</u> Read the respective concept from the course book and discuss its important concepts with the students. Show a video related to the major organs of the human body【Consult video aids section related to this topic (video length: 2 mins) 】 Read the respective concept from the course book and discuss its important concepts with the students. Ask the students to think and write about the functions of bone and muscles in the human body (solve exercise short question no.5). Provide an activity to students on page no. 20.

Time	Conclusion:	Teaching approaches
Total time: 5 min.	Students will be asked about : <ul style="list-style-type: none"> ➤ The major parts /organs in animals ➤ The structure and functions of the major organs of the human body such as bones and muscles 	Method: <u>Inquiry-based method</u> Ask questions about the concepts being delivered Solve exercise MCQ that are related to this topic

RESOURCES:

Need resources such as :

- Video aids
- Course book
- Whiteboard
- Board marker

SAFETY CONSIDERATION:

None

ASSESSMENT:

Assessment can be done through:

- Exercise-based questions
- Reading Visual pictures
- Asking conceptual questions

REFLECTION:

This teaching strategy has helped students to:

- Identify major parts /organs in animals
- Learn about the structure and functions of the major organs of the human body such as bones and muscles
