

DAILY LESSON PLAN

(No.8)

Unit: 1

Date:

Year level: 4

Characteristics and Life Processes of Organisms

Topic: Major Organs or Parts of the Human Body and their Functions

Key Learning Area: Identification of the major parts and organs of the human body,
Structure and function of the teeth

Lesson Outcomes:

- Students will be able to identify major parts /organs in the human body
- Students will be able to learn about the structure and function of teeth

Required Days: 1 day

LESSON STRUCTURE:

Teaching hours: 40 min.

Time	Introduction (Set):	Teaching Approaches
Total time: 5 min.		<u>Method:</u> <u>Class discussion and Visualization</u>
5 min.	Introduce the concept of major parts and organs in the human body	Students will be asked to ponder on the importance of the parts/ organs of the human body Show some visual pictures of human actions that are related to the function of the parts/ organs of the human body i.e. running, breathing, eating and chewing food, etc. Students will be asked to think about the importance of parts/organs of human beings

Time	Main content:	Teaching approaches
Total time: 30 min. 15 min. 15 min.	Tell the students about the difference between parts and organs of the human body Tell the students about teeth and their types and function	Method: <u>Class discussion, Group discussion, Reading and Writing</u> Read the respective concept from the course book and discuss its important concepts with the students. Show a video related to the <u>Parts of the Human Body</u> to the students. 【Consult video aids section related to this topic (video length: 1 min.)】 Read the respective concept from the course book and discuss its important concepts with the students. Show a video related to the <u>Structure of Teeth</u> to the students. 【Consult video aids section related to this topic (video length: 1 min.)】 Ask the students to think and write about the types and functions of teeth in humans (solve exercise short question no.4).

Time	Conclusion:	Teaching approaches
Total time: 5 min.	Students will be asked about : <ul style="list-style-type: none"> ➤ The major parts /organs in animals ➤ The structure and function of teeth 	Method: <u>Inquiry-based method, Activity</u> Ask questions about the concepts being delivered. Solve exercise MCQ that are related to this topic Give an activity of pasting some stickers or pictures of parts and organs of the human body in copy for homework.

RESOURCES:**Need resources such as :**

- Some visual pictures or stickers of parts and organs of the human body
- Glue stick for pasting pictures in copy
- Video aids
- Course book
- Whiteboard
- Board marker

SAFETY CONSIDERATION:

None

ASSESSMENT:

Assessment can be done through:

- Exercise-based questions
- Activity-based learning
- Reading Visual pictures
- Asking conceptual questions

REFLECTION:

This teaching strategy has helped students to:

- Identify major parts /organs in animals
- Learn about the structure, types and function of teeth
