

DAILY LESSON PLAN

(NO.6)

Unit:2

ECOSYSTEM

Date:

Year level: 4

Topic:

- Impacts of human actions on the food chain in an ecosystem
- Role of humans to save the ecosystem

Key Learning Area:

Impacts of human actions on the food chain in an ecosystem, Role of human beings to save the ecosystem

Lesson Outcomes:

- Students will be able to learn about the impacts of human actions on the food chain in an ecosystem
- Students will be able to learn about the role of humans to save the ecosystem

Required days: 1 day

LESSON STRUCTURE:

Teaching hours: 40 min.

Time	Introduction (Set):	Teaching Approaches
Total time: 5 min.		<u>Method:</u> <u>Class discussion, Group discussion</u>
5 min.	Introduce the concept of impacts of human actions on the food chain in an ecosystem Introduce the concept of their role to save the ecosystem	Students will be asked to think about the problems that will occur as a result of deforestation and other human actions. Students will be asked to think about their role to save an ecosystem through group discussion.

Time	Main content:	Teaching approaches
Total time: 30 min. 15 min.	Tell the students about the impacts of human actions on the food chain in an ecosystem	Method: <u>Class discussion, Group discussion, Reading, and Writing</u> Read the respective concept from the course book and discuss its important concepts with the students. Solve short question no.5 from the exercise Solve long question no.4 from the exercise Read the respective concept from the course book and discuss its important concepts with the students. Ask students to think and write about the role of humans to save an ecosystem in their notebook through a group discussion
15 min.	Tell the students about their roles to save the ecosystem	

Time	Conclusion:	Teaching approaches
Total time: 5 min.	Students will be asked about <ul style="list-style-type: none"> ➤ The impacts of human actions on the food chain in an ecosystem ➤ The role of humans to save the ecosystem 	Method: Inquiry-based method Ask questions about the concepts being delivered Solve exercise MCQ and True/False that is related to this topic

RESOURCES:

Need resources such as :

- Course book
- Notebook
- Whiteboard
- Board marker

SAFETY CONSIDERATION:

None

ASSESSMENT:

Assessment can be done through:

- Exercise-based questions
- Activity-based knowledge
- Asking conceptual questions

REFLECTION:

This teaching strategy has helped students to:

- Learn about the impacts of human actions on the food chain in an ecosystem
- Learn about the role of humans to save the ecosystem
